How about meeting us?

OUR VISION AND MISSION

To move forward by inspiring our environment on the path we started for the sustainability of trips, with our human-oriented service approach.

Our facility, which adopts the declaration of human rights and contributes to its adoption with internal training,

It is also aware of its public and social responsibilities in terms of being sensitive to regional problems, protecting social values, being sensitive to the environment, and protecting natural and cultural assets..

Le Meridien Bodrum Resort serves its distinguished guests as the shining star of the Bosphorus with its 95 rooms (one handicapped room), residences, suites and villas spread over 85 thousand m2 landscaped green area, with a unique panoramic nature view.

We provide service for 10 months a year with a volleyball court, Yoga area, infinity pool, an indoor pool, a pool with slides, a children's pool, six restaurants and six bar.

Between December and April, 15 minutes to the bird paradise with salt, where many bird species including Flamingos (locally Allı Crane) stay...

39 km to the uniquely beautiful Incirli cave. away from Le Meridien Bodrum Beach Resort; It is a great opportunity to host our distinguished guests who are inclined to recognize historical and cultural values outside of the cycle of the beach, sea and sun, and contribute to our guests' desire to explore various cultures.

THE FUTURE IS COMING SOON

Le **MERIDIEN**
BODRUM BEACH RESORT

WHAT IS "Sustainable Tourism"?

"Tourism that takes full account of current and future economic, social and environmental impacts and meets the needs of visitors, industry, the environment and host communities."

UNWTO

Positive effects of Sustainable Tourism on Communities, Destinations and Countries

"Economic Continuity: To support the competitiveness of businesses and destinations serving in tourism and to enable them to develop in order to have a long life.

Sustainability Process is of Great Importance for All of Us

Local Welfare: Encouraging tourists to spend in the visited area to enhance the well-being of the host community.

Employment Quality: To create employment by increasing the quality of work and wages without discrimination in the tourism sector.

Social Equity: To ensure a fair distribution of income and social benefits from tourism, with priority given to those with low income levels.

Social Equality: To ensure a fair distribution of income and social benefits from tourism, especially by giving priority to those with low income levels.

Visitor Satisfaction: To keep the satisfaction of visitors high without any discrimination.

Local Control: Collaborating with stakeholders such as public, private sector, local governments.

Social Welfare: To improve the quality of social life in a way that preserves the social structure of the host population.

Cultural Richness: Protecting the local people's culture, traditions and cultural heritage.

Physical Integrity: To protect the environment, to prevent the deterioration of the natural image.

Biodiversity: To prevent damage to nature, vegetation and wildlife.

Resource Efficiency: Limiting the use of non-renewable resources.

Environmental Purity: To prevent air, water, soil and waste pollution from businesses and visitors from becoming dangerous.” (TUSIAD, 2012)

As Le Meridien Bodrum Family, we are aware that the Sustainability Studies Minimize the Negative Impacts on the Environmental and Cultural Heritage, and that Sustainable Tourism is of Vital Importance not only for the Future Generations, but also for Reducing the Risks Projected in the Next Few Years.

We are working on what we can do more effectively to fulfill our responsibilities by joining hands with our distinguished guests for a more livable world, and we aim to achieve the best.

THE REQUIREMENTS OF MARRIOTT POLICIES ARE IMPLEMENTED AT OUR FACILITY.

MARRIOTT GOALS ADOPTED.

In order to move forward the values that were important to us in the previous years, in 2023, to the "Sustainability" Process; We started by establishing a Sustainability Committee, each of whom is an expert in their field.

To All Our Stakeholders and Distinguished Guests; Environmental Awareness, Protection of Cultural Heritage, World Without Barriers and Equal Rights to Life, Preventing All Kinds of Abuse, Creating a Safe World for All, Providing Decent Work and Living Environment, Preventing Extreme Poverty, Using Energy Efficiently and Being Inspiring for More We consider it our duty to share our efforts with a report to make us happy.

Please Follow Us...

We are planning

Le Meridien Bodrum Beach Resort; gives importance to the issues of environment, society, culture, national economy and management system and sets targets. It plans the roadmap and actions to be followed in order to reach the goal.

We apply

Le Meridien Bodrum Beach Resort; determines its basic policies and practices regarding environmental, cultural, social, human rights, health and safety. It monitors, measures and records them at intervals defined through the Sustainability Commission.

We check

At Le Meridien Bodrum Beach Resort; Feedback from both staff and customers is tracked and recorded. Corrective measures are taken if necessary.

We take precautions

It is the step in which our hotel takes action to correct the problems identified in the "check" step. Corrective measures and actions are recorded and archived.

OUR SUSTAINABILITY COMMISSION

Approval Authority: Evaluates the proposals regarding sustainability, decides on the most appropriate option, approves the decisions taken at the meetings, and inspects sustainability.

Chairman of the Commission / Chief Inspector: It designs what will be done with the slogan of «continuous improvement» in sustainability, submits it to approval, monitors, inspects, contributes to trainings, ensures sustainability.

Training Officer: (Organises trainings for all personnel on sustainability, environment, occupational health and safety, personal development, human rights, mobbing, etc.)

Commission Cross Audit ; (Within the scope of sustainability, it regularly reports to the chairman of the commission the actions taken in its own units, sets targets for continuous improvement, conducts inspections at the hotel from time to time in different units, notifies the chairman of the commission and training officers)

Technical Consultant: Provides technical information during the design phase and compliance with sustainable hotel management criteria. It shows the way.

RUNS STEP TO SUSTAINABILITY

LE MERIDIEN BODRUM BEACH RESORT SUSTAINABILITY REPORT;

Le Meridien Bodrum Beach Resort undertakes to comply with all legal regulations for a sustainable success.

- **Developing innovative sustainability initiatives**
- **Education and training from outside and inside**
- **Integrating sustainability throughout our supply chain.**
- **Biodiversity and ecosystem protection**
- **Reducing carbon footprint and climate change**
- **Conservation of natural resources**
- **Waste and pollution management**
- **Water risk issues.**

Fair trade

Le **MERIDIEN**
BODRUM BEACH RESORT

We aim to address climate change, natural resources and the evolving needs of the planet, effectively reducing environmental impact with our goals.

We take responsibility for embedding sustainability in the entire organization and building the resilience of our stakeholders/destination.

Our facility complies with all applicable Local/Regional, National and International Legislations and Regulations, Including Health, Safety, Labor and Environmental Issues, and we can share all documents with our stakeholders when necessary.

We comply with the Environmental Legislation Requirements, we search for the technology that causes the least harm to the environment, and we act with environmental awareness in every field.

To Our Distinguished Guests, Valuable People and Employees; We are willing to support them for their contributions to sustainable nature, energy saving, and keeping the local culture alive.

In line with the principle of continuous improvement, in order to protect our natural resources and minimize environmental pollution to our personnel; We organize trainings to save energy in electricity, water, fuel and other units, to take precautions by determining the risks that may occur in accordance with the rules of occupational health and safety, and to minimize the damage to nature.

<https://yesilbiradim.com/bireysel>

Establishing good relations with the local people, using our staff, who serve our distinguished guests with a smiling face, and the local workforce; we make it a valuable part of our family by educating without discrimination of age, gender or race. With our trainings, we give them the opportunity to advance in their careers. We also cooperate with Muğla University Tourism and Hotel Management Department.

We offer a good and respectable working environment.

We prefer to work with local suppliers.

We prefer to procure our products used in our hotel locally, so we not only support the local producer/supplier, but also contribute to the reduction of carbon emissions.

We set targets for ourselves within the scope of Sustainable Tourism in order to develop the destination we are in, and we strive to achieve better.

We support the improvement of village schools in our destination and contribute to child welfare (health screening, donations, etc.).

Textile, hygiene, food, etc.
We are trying to spread the use of eco-labeled products as much as possible.

We extend our love to all of our guests, employees and stakeholders who support and inspire us to achieve our goals in sustainability...

Please let's calculate our Carbon Footprint and do what is necessary to reduce it.

<https://yesilbiradim.com/bireysel>

“Plugged devices consume electricity even when turned off. These include satellite receivers, television, computers, kettles, tea and coffee machines, washing machines and dishwashers, air conditioning and cinema sound systems.”

We are working with an Environmental Consultancy Firm from a professional perspective.

Prevent electricity waste

✓ We comply with legal regulations and try to reduce our environmental impact.

✓ We take care to effectively separate our wastes according to their source, groups and hazard classes.

✓ We know that using dangerous substances and chemicals only when needed and as needed will reduce both the negative effects on the environment and the amount of waste.

✓ We contribute to the protection of nature by targeting the materials we purchase in our facility with the “recycling” and “environmentally friendly” labels. We try to create opportunities for reuse.

✓ We take care to leave less waste to nature by using disposable materials such as paper, napkins, toilet paper, packaging as much as necessary.

✓ We store the wastes correctly, in separate areas according to their characteristics, deliver them to licensed/authorized companies without exceeding the legal storage time limits, and preserve their records.

✓ We try to use water, energy and all natural resources economically. We share this sensitivity with our employees, guests and suppliers.

✓ We measure our performance in environmental management, monitor this data with targets and try to improve our performance.

✓ We aim to train our employees about the environment and increase their sensitivity.

Take a shower in 4 minutes

OUR HUMAN RIGHTS POLICY

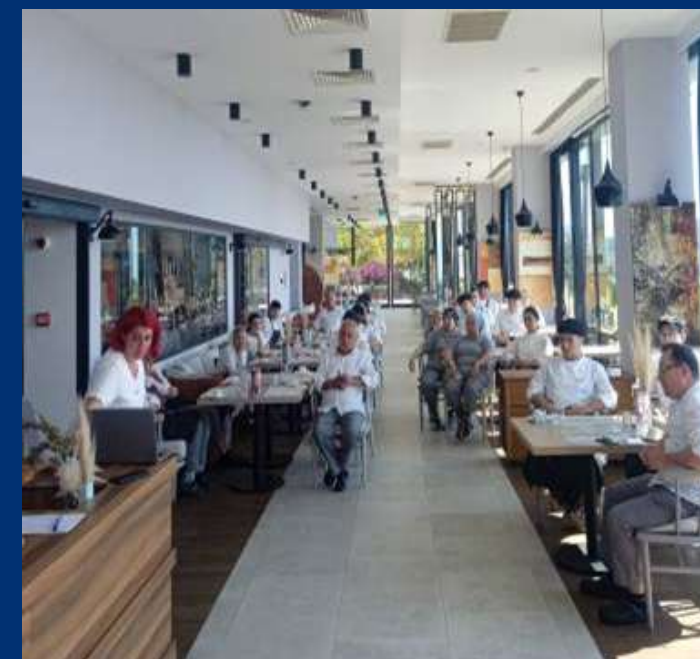

As Le Meridien Bodrum Beach Resort; We support local and international human rights laws and practices with our thought system, which is based on love and respect for living things. We expect the same understanding from all our stakeholders.

Every human being is born with equal rights. Every person should lead a life worthy of human dignity, which is based on respect and love.

Le **MERIDIEN**
BODRUM BEACH RESORT

Regardless of their differences, our employees are provided with a working environment in which they feel fully included and respect each other's rights and dignity in all their behaviors.

Recruitment, placement, career development, training, compensation and promotion decisions; It is carried out based on the qualification, performance, skill and experience of the employee.

Cultural diversity and equal opportunity are encouraged in this system, where contribution to performance and corporate success is appreciated. Therefore, with different backgrounds and experiences. Strive for the development and retention of open-minded and tolerant talents that respect differences.

Everyone working at Le Meridien Bodrum Beach Resort benefits equally from legally recognized rights and freedoms.

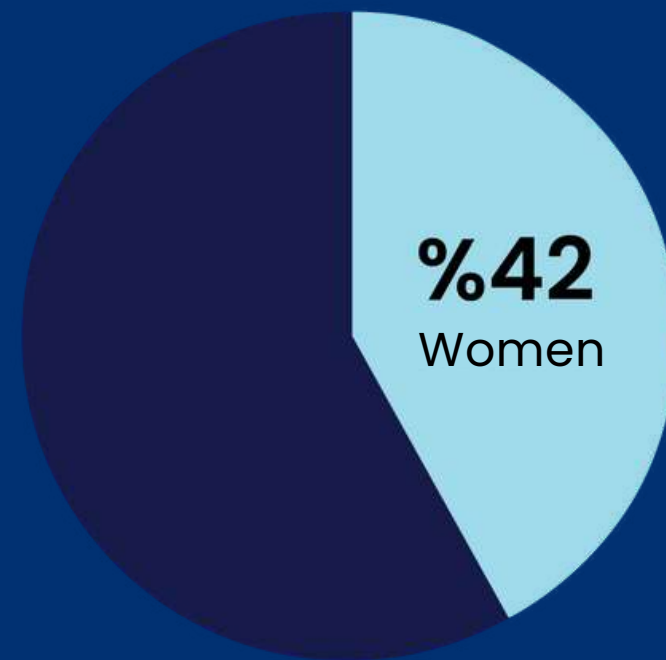

No discrimination can be made in terms of age, gender, race, color, language, religion, philosophical and political opinion, ethnic origin, economic situation, sexual orientation, health status, disability, appearance, clothing and lifestyle.

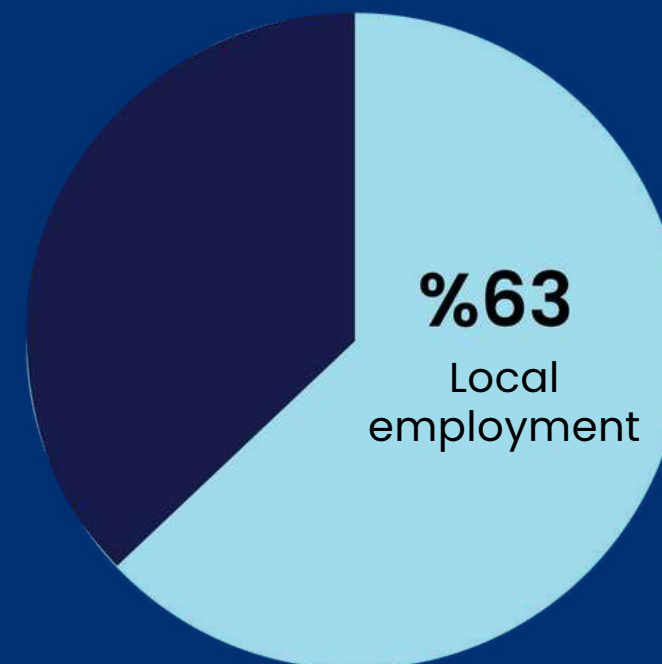

*Good and
Respectable
Work...*

OUR FACILITY IN COMPLIANCE WITH INTERNATIONAL LABOR STANDARDS:

- ✓ Supports local employment and gender equality:

**42% OF
OUR STAFF
CONSISTS
OF WOMEN**

LOCAL EMPLOYMENT
OF 63%
OF OUR STAFF

**News from
human
resources**

AN EMPLOYEE POLICY AGAINST ALL FORMS OF DISCRIMINATION

- It recruits competent personnel without discriminating against racism, religion, gender, age and similar issues.
- Help plans/organizes events.
- We have added awards in areas such as "environmental awareness, compliance with Occupational Health and Safety rules, guest satisfaction, and contribution to sustainable tourism".
 - We aim to increase the number of our local employees to 70% next year.
- It organizes awareness trainings on mobbing, child abuse, women's rights and human rights. Provides training of personnel.
- Makes performance evaluations.
- The location of the staff lodging was chosen from the closest location to the hotel. Thus, it is aimed to reduce the carbon footprint.

You can see the care we take to protect our local vegetation wherever you look when you enter within the borders of **LE MERIDIEN BODRUM BEACH RESORT.**

With our landscape team, mostly consisting of local people;

- ✓ We do our landscaping by protecting local plant species.
- ✓ We use treatment water in field irrigation to protect fresh water resources.
- ✓ The Bermuda grass we use is a type of grass that is resistant to heat and drought.
- ✓ We use environmentally friendly products such as fertiliser etc. in our green areas.
- ✓ Humic acid (The main content of organic matter in the soil is humus. Humic acid is the most active substance of humus), we prevent the soil from becoming barren.
- ✓ Our irrigation system is managed through an irrigation control unit to prevent water loss.
- ✓ We prevent water waste and mineral loss of the soil by adjusting the minute according to each tree and the region of the lawn, using drip and sprinkler systems according to the location.
- ✓ In our green area decorated with jujube, mountain strawberry, oleander, olive, mulberry, acacia, pine species, mule's claw, immortelle and wonderful bougainvillea, full of bird chirps, we ensure that you live in peace by protecting the natural ecosystem and respecting all living things.
- ✓ Our goal is to carry it to the future without any loss of local vegetation.

A Policy Against Paper Waste

In the Sustainable Tourism process; the practices carried out by the Accounting department inspire other departments.

- When printing paper, we make sure that no colour printouts are made.
- When we print, we print on two sides, avoiding paper waste.
- The oversized envelopes used for departmental reports received in the morning are reused until they are worn out.
- Our goal is to discover applications that will make it possible to store data in a computerised environment and reduce our use of paper and cartridges in 2025.

Avoid waste of paper

Are you ready to remove waste from your life?

ENERGY EFFICIENCY POLICY

- In order to protect our world from possible dangers, we use our energy efficiently and set targets to reduce our energy consumption.

For this;

- We follow national and international standards, laws and regulations in order to fulfill both our responsibilities towards nature and our legal obligations, we voluntarily carry out studies to reduce energy use and/or continuously improve our energy consumption performance, and we monitor the results of our studies.
- We set goals and include energy efficiency in our training programs in order to ensure the participation of our employees.
- We care about cooperating with all our stakeholders to create common goals and results in energy management. We try to maintain our interaction with our guests, employees, visitors and all business partners in order to reach a level of awareness and consciousness on these issues.
- We try to find, purchase and use energy efficient suitable products, equipment, equipment and technology alternatives.
- We aim to document our Energy Management System, to disseminate it to all our departments, to update, review and continuously improve when necessary.
- We evaluate energy risks or emergencies such as energy constraints, and plan the measures that can be taken.

WHAT WE DID TECHNICALLY?

1. We supported the panoramic architecture, where we can get efficiency from sunlight structurally, with our laminated glasses that absorb at least 85% of UV rays and our good insulation system.
2. Thanks to our biological purification system, we save fresh fresh water.
3. In addition, we choose our devices from A+ products and provide economical use.
4. We follow water and electricity leaks and take the necessary action.
5. We regularly monitor energy and water consumption.
6. We are planning to prevent 20% water waste by replacing our faucets and shower heads with economical products.
7. We aim to reduce the excess electricity consumption by 20% thanks to our sensor and led lamps that we will place at the points we have determined, we have started working.

Front office

- We Inform Our Distinguished Guests About Our Sustainability Studies, both verbally and via e-mails, and provide information in order to facilitate the Sustainability Process Contributions to the Welfare of Future Generations.
- We Organize Surveys, Receive Requests, Monitor and Support Our Guests in Contributing to the Sustainability Process.

As a front office, our environmental measures,

- We use the back sides of the printouts used for our guests for our note paper needs.
- We do our buggy cleaning with hotel textile products that have been discarded.
- All of our records are kept in the computer environment, we do not transfer documents. (Subjects followed up about our guests, internal correspondence, reservation confirmation documents, etc.)
- As part of Marriott's "Unlock of Art" programme, we support the local "Chocolate Museum" in the port of Karia and inform our guests about the programme.
- We support local employment, the number of local employees in our team is half of the total number. Our goal is to increase this number.

Front office

- The maintenance and all the needs of our vehicles are also done by local craftsmen.
- We use as little paperwork as possible when sending information to our guests.
- We send notifications to our Marriott guests via the GXp portal offered by Marriott, to our other guests via Whatsapp and e-mail.
- In our concierge services, we work with completely local businesses rather than national big brands. Transfer company, florist, tour organizations and the majority of restaurants.
- We reduce the use of physical plastic cards by directing our guests to the mobile key application. With Marriott's mobile key application, our guests can enter and exit their rooms with the application on their phones after check-in, thereby reducing both the use of physical cards and the use of envelopes in which the cards are placed.

OUR PURCHASING POLICY

- We Research Environmentally Friendly Products.
- We are making plans to procure Fair Trade Products and Eco Labeled Products.
- We aim to increase the amount of our environmentally friendly products in 2025.
- We Create Bulk Orders As Much As Possible To Minimize The Routine Of The Suppliers And To Reduce The Carbon Emissions.
- Minimising Suppliers' Routine, carbon As Bulk As Possible To Reduce Emissions We Create Orders.
- In order to reduce the amount of waste, we make bulk purchases in large packages as much as possible.

SERVICES

- We Contribute to Sustainability by Avoiding Unnecessary Energy and Water Use in Room Cleaning and General Area Cleaning.
- We raise awareness of our staff about savings through regular trainings.
- By regulating the use of curtains, we prevent unnecessary air conditioning use.
- We pay attention not to change the hotel textile without a request, in order to contribute to our distinguished guests' support to the nature in terms of water and electricity saving.
- We Contribute to Sustainability by Using Environmentally Friendly Products.

Thanks to the card system in the rooms, we save electricity.

**DELICIOUS FOOD SMELLS
COME TO OUR NOSES!**

Our policy as the kitchen department:

We Contribute to the Promotion of Local Culture by Including Local Tastes as Much as Possible in the Menu.

- Olive oil
- Milas Çekçe Olive - Milas Oil Olive - Crushed Black Olive
- Çökertme kebab- milas herb pastry
- Sour-milas yoghurt
- Aegean style shrimp casserole - gulluk gulf salad
- Milas style egg and herb pita
- Basement salad- aegean herbs sauté

We aim to update our menu on local delicacies next year.

For Sustainable Visits

Every step we take to make the world livable for a longer period of time...

OUR SALES/MARKETING POLICY

- We Contribute to Reducing Carbon Footprint by Marketing to Close Locations, Including the Domestic Market.
- We Inform Our Guests About Featured Events, Festivals, Historical Places in Our Destination and Contribute to Our Destination.
- We Provide Accurate Information About the Characteristics of Local Culture While Promoting.

F&B SUSTAINABILITY REPORT

- We do not use plastic straws in order to reduce the harm of straw use to the environment, and we offer it to optional use in order to reduce the amount of waste.
- We Contribute to the Promotion of Local Culture with Our Locally Dressed Employees.
- We use audio and visual menus to remove the barriers of our visually and hearing-impaired guests.
- We aim to include braille menu design and staff trained in sign language by 2025.

YOU ARE SAFE WITH US

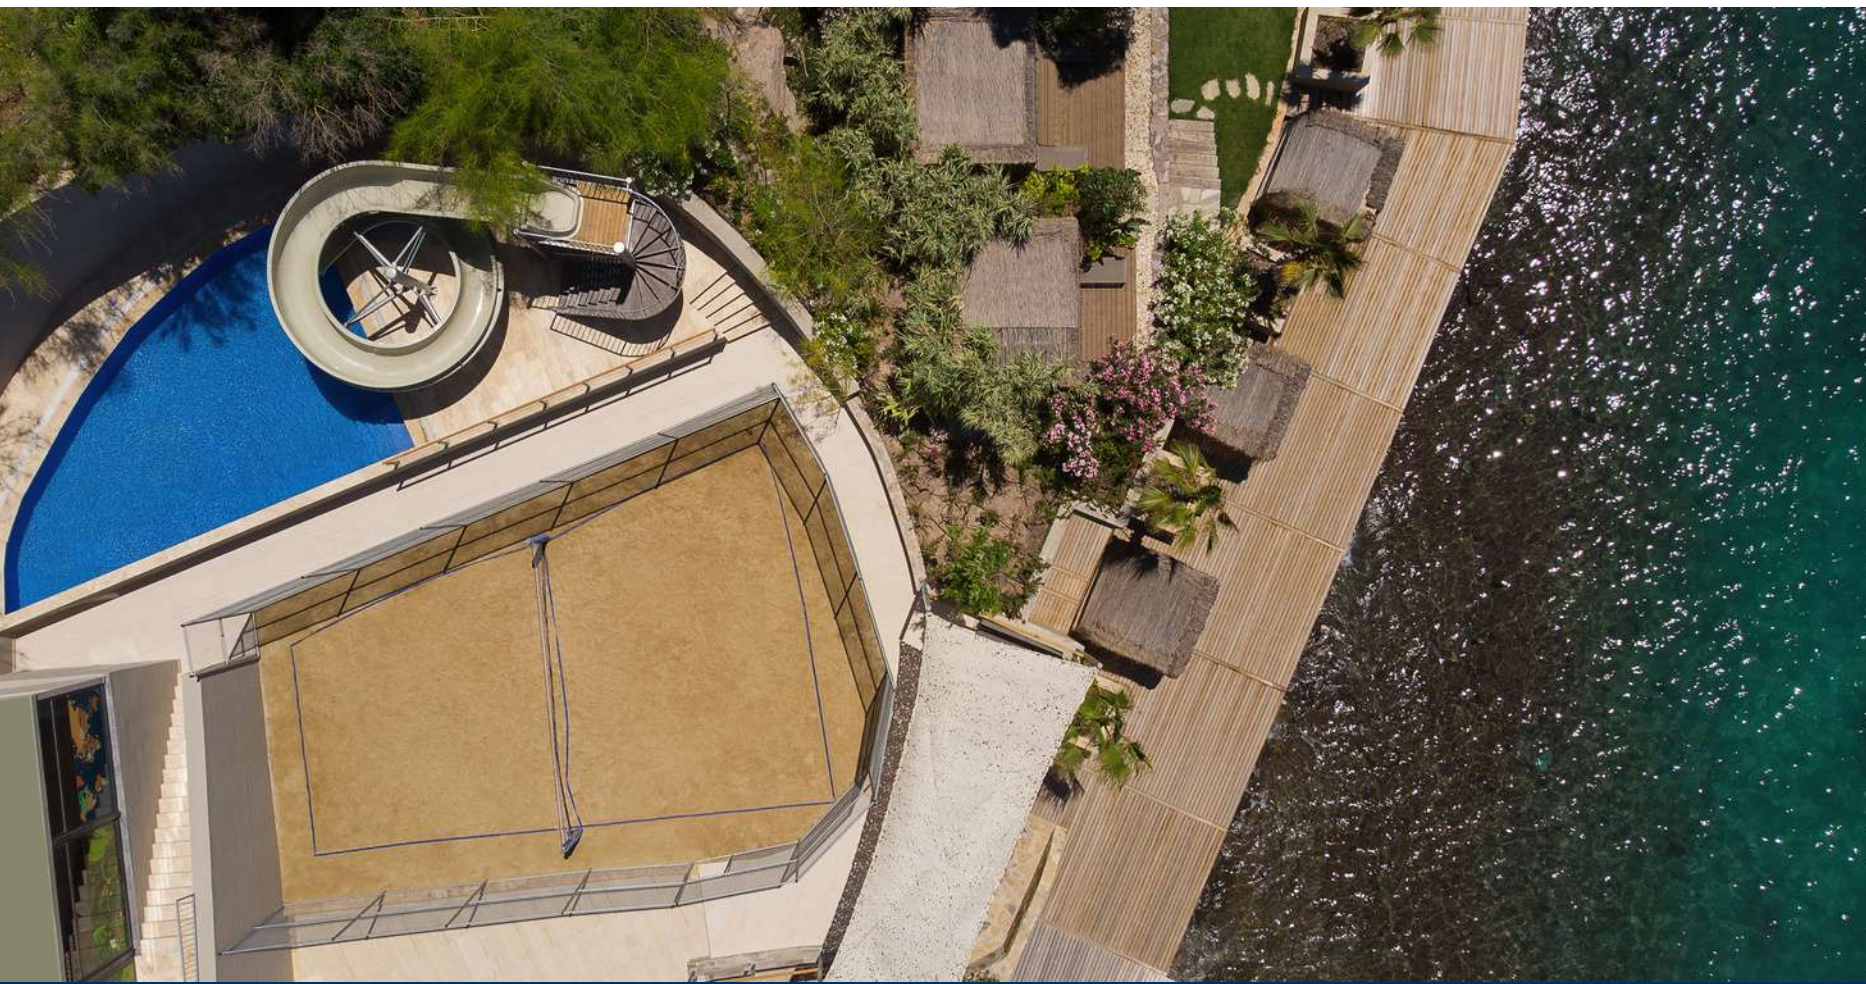

You can enjoy your holiday in confidence with our professional security team responsible for the security of the hotel 24 hours a day.

In accordance with our security policy against all kinds of abuse and violence, we are attentive to all kinds of dangers that may come to our distinguished guests and employees..

Children We Love You So Much!

- We do not allow child labor in our own institutions and we expect the same sensitivity from all our business partners.
- We offer environments/opportunities within the enterprise that contribute to the development of children, where they can freely express their thoughts, wishes and feelings, and where they feel free and comfortable.
- We train our employees on the prevention and recognition of child abuse.
- We make sure that children are under adult supervision in the activities they participate in.
- We organize trainings and support related projects to raise awareness about the protection of children's rights.
- When we witness suspicious activities related to children, we first inform the hotel management and ask for help from official institutions when necessary.

“ Quality is to comply with the desired conditions at the first time, on time and every time.”

**QUIT THE
PLASTIC...**

In order to ensure the sustainability of magnificent trips...

As the Le Meridien Family, we would like to make a promise with our distinguished guests that future generations will experience the same pleasure as us.

As per our policy, our approach to historical artifacts is in compliance with the law. We Will Pay Attention to Sustainability in All Fields, Always Thinking of You.

What a Wonderful Feeling To Witness A Few Frames From The Fascinating World Of Historical Artifacts And Rare Wild Animals That Allow Us To Breathe The Air Of Centuries Ago! We Announce The Rules We Have Adopted As A Sign Of Our Determination To Fulfill Our Responsibilities To Give Future Generations A Chance To Experience These Magnificent Emotions...

As Le Meridien Bodrum Beach Resort Family, We Thank You For Preserving Cultural Values

- First of all, Thank You for Throwing Your Garbage In The Waste Bins (If You Can't See The Waste Bin, Store It Until You Go To The Waste Bin Area).
- Thank you for entering the places of worship in accordance with the rules specific to them. (Headscarf, Silence, Compliance with the Dress Rules)
- We would like to thank you for being careful in the areas where there are historical ruins and not climbing, touching, writing, writing, damaging the walls with your bags. (For example, pay attention to whether there is a material that can be damaged in the place where you step, where you put your bag.)
- Thank you for saving magnificent images in your memory in places where shooting without a flash is also inconvenient due to the damaging effect of flash on historical textures or for security reasons.
- Thank you for absorbing the moments full of wonderful beauty in places that require silence.
- Thank you for not keeping even the smallest piece of historical ruins with good intentions such as "a souvenir".
- Thank You For Not Scaring These Wonderful Creatures By Being Quiet When You Attend An Event About Watching Wildlife.

*Reduce your carbon footprint,
use a bicycle.*

What World Citizens Do?

It should respect the culture, customs and traditions of the region, its sacred places, and abide by the rules in historical and cultural areas.

There is no fire in forest areas...

Seashells, coral, starfish, ivory, etc. does not buy souvenirs because; protecting animal and plant species...

Instead of lighting a lamp, it benefits from daylight as much as possible...

It takes a shorter shower and prevents water and energy waste...

It researches and implements methods to reduce our waste...

It throws our garbage into the relevant waste bins and contributes to recycling...

Plastic bags, straws, etc. uses alternative products instead of products...

He walks close distances,
prefers cycling or public
transportation...

It contributes to the
environmental friendliness
of the hotels we stay in...

It treats its employees
in a respectful manner
befitting human
dignity...

It participates in joint
projects with NGOs that
are environmentally
friendly, sensitive about
abuse and
discrimination, and
have projects for child
welfare, or it supports
them by making
donations.

*Use the recycling bins,
eat as much food as you need*

We obt clean water and nature to children...

A Short Information;

According to the "World Water Development Report" published by the United Nations before the World Water Day, Global Water Resources will be able to meet only 60 percent of the rapidly increasing water demand in 2030 due to industrialization and urbanization.

In other words, 40% of the world will be dehydrated.

According to Unicef, one out of every four primary schools in the world lacks clean drinking water. In addition, more than 700 children under the age of 5 die every day from diarrhea caused by unhygienic water.

We thank you in advance for motivating us and supporting our efforts to leave the world more beautiful by participating in our short survey in order to realize the necessity of environmental responsibility of all parties involved in tourism, including public bodies, businesses, touristic consumers and local people, and the awareness of the consumable nature of natural resources. ...

We congratulate all Le Meridien Bodrum Beach Resort stakeholders who have taken a stance against abuse, harassment, discrimination, ethnic enmity, faithlessness, and gender hatred.

Welcome to Turkey, one of the heavenly corners of the world, which has adopted the principle of "Peace at Home, Peace in the World".

Welcome to Le Meridien Bodrum Beach Resort.
